ASSIGNMENT OF PATENTS

This ASSIGNMENT OF PATENTS, dated November 10th, 2004, is entered into by Joseph K. Price, an individual resident of North Carolina (the "Assignor"), for the benefit of Analytical Technologies LLC, a North Carolina corporation ("Assignee").

WHEREAS, Assignee and Assignor have entered into that certain Technology Transfer Agreement, dated as of the date hereof (the "Agreement"), pursuant to which Assignor has agreed to sell and assign, and Assignee has agreed to buy and certain intellectual property to Assignee; and

WHEREAS, pursuant to the Agreement, Assignor desires to assign to Assignee all of Assignor's right, title and interest in and to the patents, patent applications, patent disclosure and related patent rights (the "Patents") set forth on Schedule 1 attached hereto.

NOW, THEREFORE, in consideration of entering into the Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, set overs and transfers to Assignee, its successors and assigns all of Assignor's entire rights, title and interests in and to the Patents, and agrees to sell, assign, set over and transfer to Assignee, its successors and assigns all of Assignor's entire right, title and interest in and to the Patents that are completed or come into existence hereafter, including any divisions, continuations, re-examinations, or reissues, and extensions thereof, and all rights of priority resulting from the filing in the United States of the Patents, and any and all applications for patent and patents issuing therefrom in any and all countries of the world, including all divisions, continuations, re-examinations, or reissues, and extensions thereof, and all rights of priority resulting from the filing in the United States of the respective applications for said Patents identified above, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns and other legal representatives, to the end of the term or terms for which the Patents are or may be granted or reissued as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment and sale had not been made, together with all claims for damages by reason of past infringements of the Patents including without limitation provisional rights thereto with the right to sue for and collect the same for its own use and benefit, and for the use and on behalf of its successors, assigns and other legal representatives; provided, however, Assignee will be responsible for those costs and expenses reasonably incurred by Assignor in carrying out Assignor's obligations pursuant to this paragraph. Assignor agrees that, on request it will at Assignee's expense sign all lawful papers in connection with all divisional, continuing, re-examining and reissue applications, make all rightful oaths and generally do everything reasonably requested by Assignee to aid Assignee, its successors, assigns and nominees to obtain, maintain, and enforce patent protection in any country for the inventions set forth in the Patents.

PATENT AND PATENT APPLICATIONS ASSIGNMENT

WHEREAS, Analytical Technologies, LLC, a North Carolina limited liability company, hereinafter "SELLER," is the owner of all interest in the inventions disclosed in the United States patents and patent applications listed in Schedule A (collectively, the "Patents"), which are attached hereto and incorporated by reference herein.

WHEREAS, Sensory Analytics, LLC, a North Carolina limited liability company, hereinafter "BUYER," desires to acquire an interest therein.

WHEREAS, the SELLER and BUYER have entered into a certain Asset Purchase Agreement of even date herewith pursuant to which the SELLER has sold and the BUYER has, among others, purchased all right, title, and interest in, to and under the Patents.

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, SELLER has sold, assigned and transferred and by these presents does hereby sell, assign and transfer unto said BUYER, its successors, assigns, and legal representatives, SELLER's entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the inventions as described in said Patents, together with SELLER's entire right, title and interest in and to said Patents, and such Patents as may issue thereon or claim priority under law or international convention; including but not limited to conversions, continuations, divisionals, reissues, renewals, reexaminations, and other filings related to such Patents; said inventions and Patents to be held and enjoyed by said BUYER for its own use and behalf, and for its successors, assigns and legal representatives, to the full end of the term for which said Patents may be granted as fully and entirely as the same would have been held by SELLER had this assignment and sale not been made; SELLER hereby conveys all of SELLER's rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by such Patents. SELLER hereby acknowledges that this assignment, being of SELLER's entire right, title and interest in and to said inventions, carries with it the right in BUYER to apply for and obtain from competent authorities in all countries of the world any and all Patents by attorneys and agents of BUYER's selection and the right to procure the grant of all Patents to BUYER for its own name as BUYER of SELLER's entire right, title and interest therein. SELLER also hereby acknowledges that this assignment carries with it the right in BUYER to sue for damages for infringement of said Patents.

AND, SELLER hereby further agrees for itself and its successors, assigns and legal representatives to execute upon reasonable request, and at BUYER's expense, any other lawful documents and likewise to perform any other lawful acts which may be reasonably deemed necessary to secure fully the aforesaid inventions to said BUYER, its successors, assigns, and legal representatives, including: the execution of applications for patents in foreign countries; the execution of substitution, reissue, divisional or continuation applications; and preliminary or other statements or the giving of testimony in any interference or other proceeding in which said inventions or any application or patent directed thereto may be involved.

AND, SELLER hereby authorizes and requests the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to record BUYER as the owner of the Patents and to issue any applications as shall be granted upon such Patents, notices and any other communications and documents bearing on the Patents based thereon, to said BUYER, its successors, assigns, and legal representatives.

AND, this assignment is binding on SELLER, and its successors and assigns, and will inure to the benefit of BUYER, its successors and assigns, and shall be construed and enforced in accordance with the laws of the state of North Carolina without regard to the conflict or choice of law rules of North Carolina or any other jurisdiction.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed by their duly authorized officers as of this 10th day of November, 2004.
